1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4, 11-13, 15, and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Karl. Karl discloses the claimed invention, including recovering refrigerant from the section of the refrigeration circuit during a recovery cycle. See especially column 4, lines 47-62.

3. Claims 5, 14, and 16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Claims 6-10 are allowed.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
